

Questions and Answers – Renovation Works at Public Affairs Section (PAS)
Solicitation # SBG30015Q0983

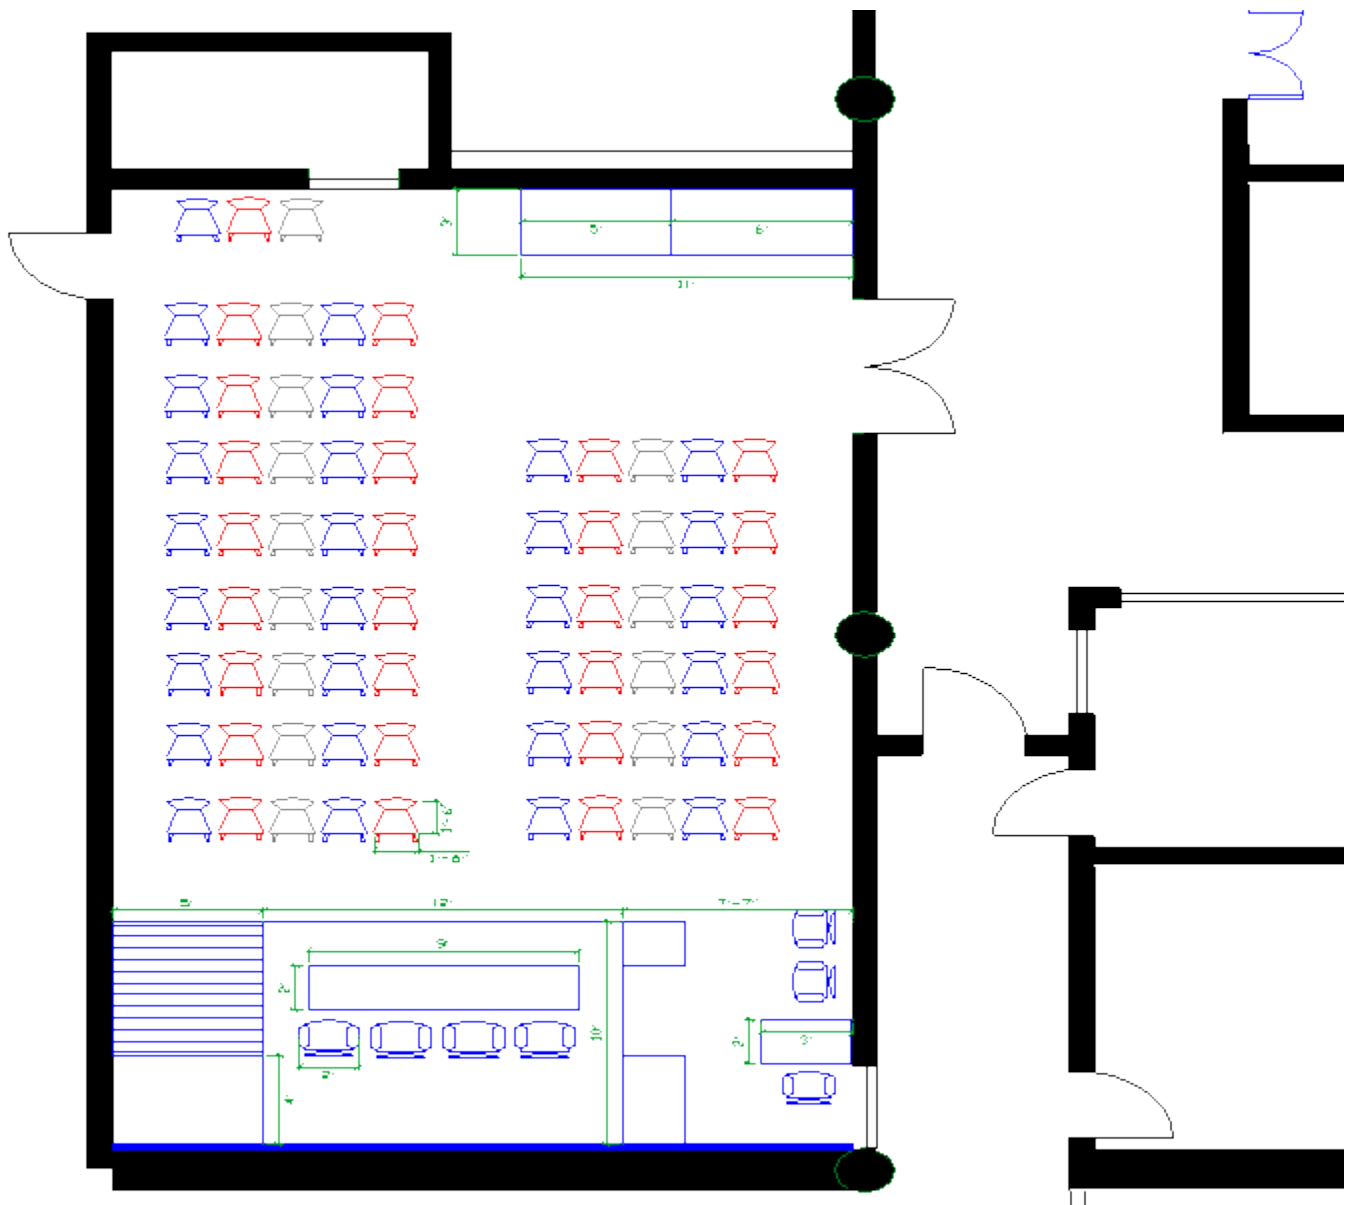

Dear Prospective Offeror,

Please see answers (marked in red) in response to the questions received from the following contractors on the subject solicitation:

Questions from Anan Construction:

1. As per SOW it is mentioned foldable and movable stage. Which type stage will be needed? please provide us the details Sketch or Drawings.

Please refer to the drawings provided in the bid documents. The stage is 10' x 12'. It will be divided into 2 equal portions. It should be made of 1" thick Burma Teak wood. Support should be provided by 4" x 4" block every 2 feet both ways. The ramp besides the stage shall be 5' wide and a landing 4' x 5' will be at the end of the ramp. The drawing is also provided below for guidance.

2. **Decorative works at back wall in reception/auditorium area: please provide us the detail description of the work or we need Picture / Sketch / Drawings.**

Please see the design below.

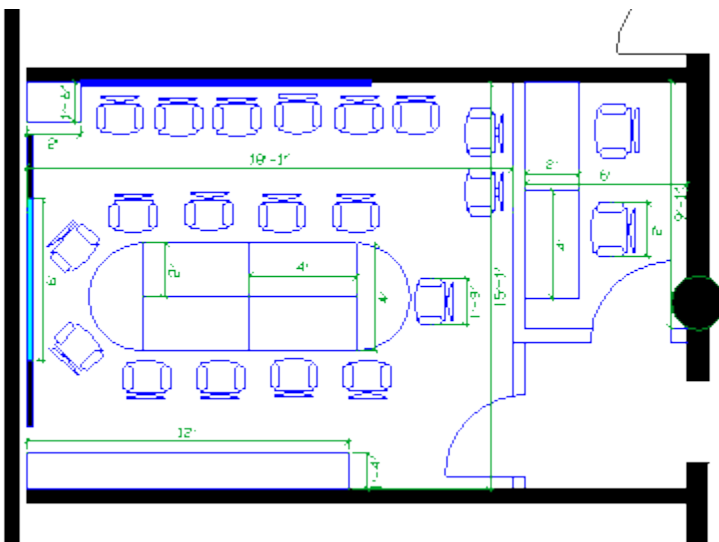

3. **Please provide us Signage details for Signage at door.**

Please ignore this item.

Questions from Fourth Dimension (architects & engineers):

We Fourth Dimension (architects & engineers) would like to Participate in this work and we already download the Solicitation package from your website, But the Drawing of Conference Room is missing your attachment.

Drawing C: Conference Room
